Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 11, there is no antecedent basis for "the bent part" or "the pointed part".

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ward 5,125,518. Ward teaches a commodity display device wall surface member 30. Note turning space with catching grooves at 64,66,68. Note catching protrusion bar at 62. Note hanging shelf member 40 having a catching member. Note shelf element 70 engaging with catching protrusion bar 62.

Applicant's remarks have been carefully considered. Claim 1 has been amended. Claims 1-5 remain in the application.

In paragraph 4 of applicant's remarks it is argued that the prior art of record does not teach two concave catching grooves. The examiner disagrees. Applicant's attention is directed to Figure 11. The top of the groove, the right side of the groove and the left side of the groove can all be seen as "catching grooves" since they catch essentially different surfaces of the hanging shelf member 70.

On page 5, paragraph 2 of applicant's remarks, it is asserted that there is no engagement projection on the hanging shelf member. Applicant's attention is drawn to Figure 5 and the engagement portion on element 70 (a little bump on the inside of the curve for engagement with the concave section 68 of the wall surface member.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah Purol whose telephone number is 703-308-3766. The examiner can normally be reached on Mon. Tues. Thurs. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
